

LEADERSHIP LIVERMORE

Creating Tomorrow's Leaders...

Leadership Livermore is a nine month (September - May) program of the Livermore Chamber of Commerce in partnership with the City of Livermore. The class, which is held one day each month, brings approximately 25 participants together to get a **behind the scenes look at the community** and to **build relations with other leaders**. Leadership Livermore is an ideal program for business executives and future leaders who will benefit from an **instant "in" to who's who in the community and the State of California**.

"In these economic times it is more important than ever to network and build relationships. It is often who you know that gets you the job. This program is a great relationship builder." **Jeanie Haigh, Web Bearings, Inc**

"The program is a valuable resource to the community and creates an increased understanding of salient social, economic and cultural aspects of the Tri Valley. It has offered a multitude of networking opportunities and offered a new way of interacting with the community."

Gloria Jam, LARPD

"This was the most informative program that I have ever taken. The variety of each month was well rounded in all fields of business, government and arts. This gave me the knowledge of things going on in the City that I never knew existed." **Karen Long, Wells Fargo Home Mortgage**
